

EXOTAN SUPPORTS
OCEAN CLEAN UP
TO MAKE THE WORLD
A LITTLE BIT BETTER

Every year there is a huge amount of waste in the 5 ocean streams.

The Indian Ocean stream causes an enormous amount of waste to be found on the beaches of India.

The Exotan plaids are woven from these recycled yarn.

This waste is collected from the beaches by companies that recycle and convert it into materials that can be made of yarn.

The Exotan plaids contribute to cleaner oceans.
